A project Report on Shipping Management System

In fulfillment of the requirement for the 4th
Semester of Master of Science in Information
Technology Programme

Submitted by

SOLANKI SHYAM VASANTBHAI Enrollment No.: 222030202258MSCIT

&

JETHAVA JIGESH RAJENDRA Enrollment No.: 822000329407MSCIT

Session: August 2024

Under the Guidance of: Mr. NILESH BOKHANI

Acknowledgement

We are thankful to Mr. Nilesh Bokhani and also thankful to our organization Team, for inspiring us by spending their valuable time and effort also being supportive at every stage of the project work. They encouraged us and provided full support whenever needed throughout our completion of the project we have undertaken as our final year project. We also express our gratitude for their continuous source of guidance and help at technical side. Without their help and right guidance, the completion of the project would have been very difficult.

We are also thankful to Dr. Babasaheb Ambedkar Open University for offering us such a great elective subject that binds all the knowledge. We have gained through this degree program and last but not the least we would like to thank all our friends who have provided their throughs about our project during development and for the further enhancement.

Thanking you,

SOLANKI SHYAM VASANTBHAI, JETHAVA JIGESH RAJENDRA

Certificate of Originality from the Guide

This is to certify that the project report entitled as **Shipping Management System** submitted to Dr. Babasaheb Ambedkar Open University in partial fulfillment of the requirement for the award of the degree of Master of Science in Information Technology Master of Science - Information Technology, is an original work carried out by Mr. **SOLANKI SHYAM VASANTBHAI & JETHAVA JIGESH RAJENDRA** Enrolment No.: **222030202258MSCIT & 822000329407MSCIT** under the supervision of **Mr. NILESH BOKHANI**

The matter embodied in this project is a genuine work done by the learner and has not been submitted either to this University or to any other University/Institute for the fulfillment of the requirement of any course of study.

1 INTRODUCTION

1.1 Company Information

Absolute Shipping and Marine Services

- 1) This is a software for handling the Container Enquiry
- 2) This Store the Container Enquiry in Database and Admin Can Manage it
- 3) This software handles the all the word flow and stored data of every Container Enquiry
- 4) This software is used by employees to handle all Container Enquiry
- 5) This software provides much help to the company it help storing and can access easily all operations

1.2 The key objective

1.2.1) WORK BY ONLINE SERVICE

All the Paper word is lessen and all data is stored on server

1.2.2) DATA STORAGE

All day to day operation are stored and can be visualized By Admin

1.2.3) AVAILABILITY

It is Available 24x7

1.2.4) MANAGEMENT

It can be Easily Managed by Admin

2 PROPOSED SYSTEM

2.1 Shipping Management System

- 1) User can Create Account(Sign Up)
- 2) User Can do a Container Enquiry
- 3) Admin Can Check Container Enquiry
- 4) Admin Can See all Created Account
- 5) Admin Can Send E-Mails

2.2 Advantages & limitation

Advantages

- 1) Provide easy Way to get Container Enquiry
- 2) Store All the Data
- 3) User can Access Anytime when Needed
- 4) Admin can Delete unnecessary Container Enquiry

Disadvantages

- 1) Admin need knowledge of flow of working of the system
- 2) User Cannot Modify Their Account

2.3

Project Profile

Project Title	SHIPPING MANAGEMENT SYSTEM	
Project Definition	SHIPPING MANAGEMENT SYSTEM IS A SYSTEM IN WHICH A USER CANDO CONTAINER ENQUITY	
Team Member	2	
Team Member Name	SHYAM VASANTBHAI SOLANKI JIGESH RAJENDRA JETHAVA	
Time Duration	4 Months	

2.4

Technical Detail

Front End	BOOTSTRAP, JAVASCRIPT, HTML, CSS
Back End	MySQL, PHP
Operating System	Windows 11
Web Server	XAMPP SERVER
Browser	Internet Explorer, Mozilla Fire-Fox, Google Chrome
DATABASE	MySQL

2.5

Users Profile

USER	The primary user of the system. The user can visit and non-registered user of website.
Administrator	Admin Can Manage Website and Container Enquiry

3 Platform Environment

3.1 <u>Specification for Hardware and Software</u>

- 1) Operating System (for Development)
 - Windows 10
- 2) Server Configuration
 - Xampp Server
- 3) Database
 - MySQL
- 4) Software requirement (for Development)
 - Google Chrome
- 5) For Client Side
 - All web browser

3.2 Hardware and Software Detail

Software Details			
Front End Language	PHPMyAdmin		
Back End Language MySQL			

Hardware Details			
Operating system	Windows 11		
Processor	AMD Ryzen 5 5500U		
Hard disk	512 GB		
Main Memory	8 GB		
CD Drive	No		

Structure Analysis

4.1 Application Requirement Specification

<u>Login</u>:- For security purposes whenever each user attempts to get login. His/her login ID and Password should be verified before they are granted access

<u>Change password</u>: User has been provided the facility to change his/her password that he/she used to access the account

<u>Delete account</u>:- User can delete account permanently if they want to do so

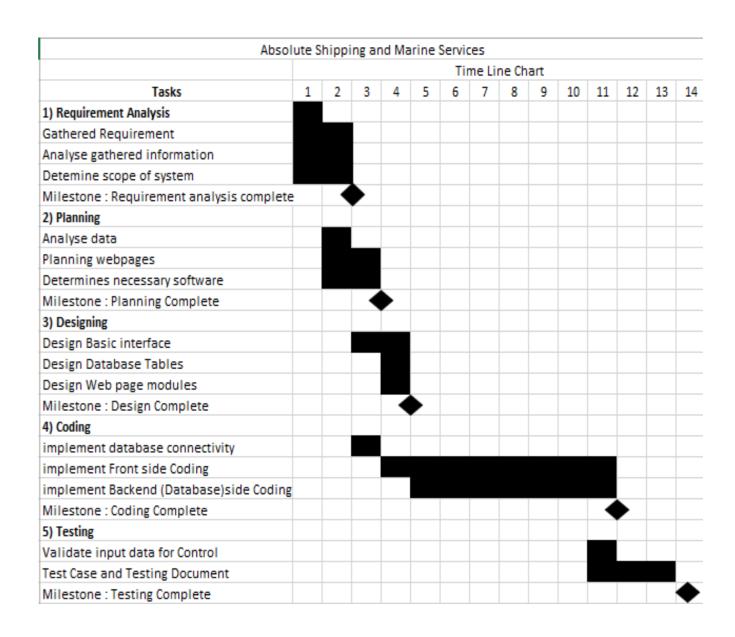

<u>Admin Delete Enquiry</u>: - Admin can delete Container Enquiry

6 <u>Database Design</u>

6.1

Description

Database Name mscit project

Total Table 5

- 1) Customer
- 2) Container
- 3) Email
- 4) Feedback
- 5) Admin database

6.2 Customer Table

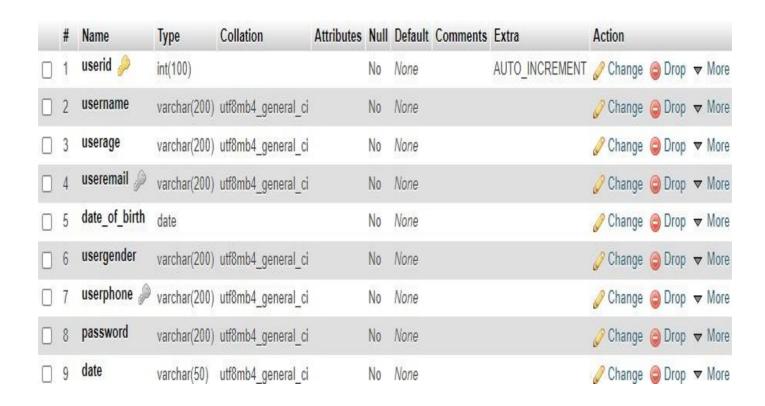

<u>userid - Integer</u> Primary Key userphone – varchar Unique useremail – varchar Unique

Column Name	Datatype
username	varchar
userid	integer
userage	varchar
useremail	varchar
date of birth	Date
<u>usergender</u>	varchar
<u>userphone</u>	varchar
<u>password</u>	varchar
<u>date</u>	varchar

Description- It Store Detail at time of Sign up / Registration

Customer Table

6.3 Container Table

<u>order id – Integer Primary Key</u> <u>userid – integer Foreign Key</u>

Column Name	Datatype
Source	varchar
Destination	varchar
Туре	varchar
size	Date
Customer_email	varchar
phonenumber	varchar
Date_and_time	varchar
name	varchar
Order_id	Integer
Cargo_weight	varchar
DOD	varchar
userid	Integer

Description:-it store all the Container Enquiry Detail

Container Table

6.4 Email Table

Column Name	Datatype
Receiver	varchar
Subject	varchar
Body	varchar
Date	varchar

Description - it store send email details

Email Table

#	Name	Туре	Collation	Attributes	Null	Default	Comments	Extra	Action			
1	receiver	varchar(200)	utf8mb4_general_ci		No	None			Change	Drop	~	More
2	subject	varchar(200)	utf8mb4_general_ci		No	None			Change	Drop	~	More
3	body	varchar(200)	utf8mb4_general_ci		No	None			Change	Drop	▼	More
4	date	varchar(200)	utf8mb4_general_ci		No	None			Change	Drop	~	More

6.5 Feedback Table

Column Name	Datatype
Comment	varchar
Date	varchar
Name	varchar
Phoneoremail	varchar

Description - it store feedback Detail

Feedback Table

#	Name	Туре	Collation	Attributes	Null	Default	Comments	Extra	Action			
1	receiver	varchar(200)	utf8mb4_general_ci		No	None			Change	Drop	∇	More
2	subject	varchar(200)	utf8mb4_general_ci		No	None			Change	Drop	~	More
3	body	varchar(200)	utf8mb4_general_ci		No	None			🧷 Change	Drop	∇	More
4	date	varchar(200)	utf8mb4_general_ci		No	None			Change	Drop	∇	More

6.6 admindatabase Table

admin – varchar password – varchar

Column Name	Datatype	
admin	varchar	
password	varchar	

Description - it store admin username and password Detail

8

Testing

8.1

Unit Testing

Unit testing is a software development process in which the smallest testable parts of an application, called units, are individually and independently scrutinized for proper operation. This testing methodology is done during the development process by the software developers

8.2

Interface Testing

Interface Testing is a type of software testing type that checks the proper communication between two different software systems

8.3

Black box Testing

Black Box Testing is a software testing method in which the internal structure/ design/ implementation of the item being tested is not known to the tester.

8.4

White Box Testing

White Box Testing is a software testing method in which the internal structure/ design/ implementation of the item being tested is known to the tester.

8.5

Testing Document

FORM NAME: Login form					
Function Area	Step	Expected output	Result		
Run Application	<null></null>	INVALID	Username is empty		
Login	Open login Page	Login Page opened	Pass		
Login	Press login button without entering username and password	Validation message should displayed	Pass		
Login	Enter username and password	Successfully Logged in	Pass		
Signup	Press signup button without entering details	Validation message should displayed	Pass		
Signup	Enter all Details	Successfully Signup	Pass		

8.6

Test Cases

	FORM NAME : Login form					
FIELD	INPUT VALUE	VALID/INVALID	ОИТРИТ			
Name	<null></null>	INVALID	Username is empty			
	MANISH	VALID	AS PER EXCEPTED OUTPUT			
E-Mail Address	<null></null>	INVALID	Password is empty			
	MANISH	VALID	AS PER EXCEPTED OUTPUT			

	FORM NAME : Signup form					
FIELD	INPUT VALUE	VALID/INVALID	ОUТРUТ			
Name	<null></null>	INVALID	Username Should not be empty			
	MANISH	VALID	AS PER EXCEPTED OUTPUT			
E-Mail Address	<null></null>	INVALID	Password is empty			
	MANISH	VALID	AS PER EXCEPTED OUTPUT			
Date of Birth	<null></null>	INVALID	Password is empty			
Age	<null> MANISH 23</null>	INVALID INVALID VALID	Age Should Not be Empty Enter valid age AS PER EXCEPTED OUTPUT			
Phonenumber	<null> MANISH 23</null>	INVALID INVALID VALID	Phonenumber Should Not be Empty Enter valid phonenumber AS PER EXCEPTED OUTPUT			
Password	<null> MANISH</null>	INVALID VALID	Password must be greater then 8 AS PER EXCEPTED OUTPUT			

FORM NAME : Container Enquiry Form						
FIELD	INPUT VALUE	VALID/INVALID	ОИТРИТ			
Source	<null></null>	INVALID	Please select an item in the list			
	Selected	VALID	AS PER EXCEPTED OUTPUT			
Destination	<null></null>	INVALID	Please select an item in the list			
	Selected	VALID	AS PER EXCEPTED OUTPUT			
Size	<null> Selected</null>	INVALID VALID	Please select an item in the list AS PER EXCEPTED OUTPUT			
Туре	<null> Selected</null>	INVALID VALID	Please select an item in the list AS PER EXCEPTED OUTPUT			
Weight	<null> Selected</null>	INVALID VALID	Please select an item in the list AS PER EXCEPTED OUTPUT			
Date of departure	<null> Selected</null>	INVALID VALID	Please select an item in the list AS PER EXCEPTED OUTPUT			
Source , Destination	Selected	INVALID VALID	Source Destination cannot be same AS PER EXCEPTED OUTPUT
